

Java Assignment 3d – Loops with letters

Create a new Java project with a class called Palindrome2

Object:

Have the user enter a sentence containing up to 20 letters.
Then reverse the sentence and display its inverse.

Upload the completed java code to Edmodo when done (in either .txt or .docx format)

Example 1:

Give me a sentence (20 letters max) >

The rain in Spain is

The reverse of that sentence is >

si niapS ni niar ehT

Example 2:

Give me a sentence (20 letters max) >

All cats love yarn

The reverse of that sentence is >

nray evol stac llA
