Java Assignment 3e – Loops within loops

Create a new Java project with a class called **BlockMaker**

Object:

Have the user enter a number and have the computer output a block of Xs that measure by that number in width and height.

Hint: you will need to use a loop inside of a loop to get this to work

Upload the completed java code to Edmodo when done (in either .txt or .docx format)

Example 1:

```
Enter a number > 4

XXXX
XXXX
XXXX
XXXX
```

Example 2:

```
Enter a number > 10

XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
XXXXXXXXXX
```
